

FORCE USA PRO GRADE COLOURED BUMPER PLATES SET

FORCE USA

SKU: F-PGB

KEY FEATURES

MINIMUM BOUNCE

Designed to be dropped from a height, the Force USA® Pro Grade Coloured Bumper Plates are made from high-quality solid virgin rubber providing shock absorption, protection for your floor and reducing noise during your weight lifting workouts. The Olympic sized (50.4mm) collar opening is fitted with a stainless steel insert for more excellent shock distribution and absorption.

Technological advancement has made this range of bumper plates denser, resulting in lower bounces that are perfect for all your lifting needs.

HIGH-END DESIGN

Each Pro Grade Bumper Plate has a smooth surface finish and is coloured per size to match IWF standard. The distinctively smooth finish, bold colour and clear print markings make them recognisable at a distance.

As per IWF specifications, 10kg is represented by green, yellow for 15kg, blue for 20kg. Force USA's particular attention to design has once again made a high-end product accessible to all.

THREE YEAR WARRANTY

Force USA® Pro Grade Coloured Bumper Plates are ideal for Olympic lifting, powerlifting, functional training, strength and conditioning and other heavy-duty exercise regimes. Graded for full commercial use and backed by a comprehensive 3 Year Force USA® Replacement Warranty
