

FORCE USA SKI TRAINER

SKU: F-SKI-TRAINER & STAND

KEY FEATURES

THE LATEST AND GREATEST SKI TRAINER

Force USA has designed and engineered a durable, commercial-grade Ski Trainer that's perfect for anyone looking to boost their strength and fitness from the comfort of home.

By simulating the movement of cross-country this low-impact machine gives you a full-body cardio workout, helping to burn serious calories and fat while toning muscles. It's also ideal for anyone looking to reduce wear and tear on their joints.

10 ADJUSTABLE RESISTANCE SETTINGS

The clever flywheel technology in your Force USA® Ski Trainer includes 10 resistance levels to easily change your workout intensity. The in-built air dampener controls the volume of air moved by the vanes of the rotating flywheel - so the harder you pull, the harder the resistance is.

5 MORE REASONS THIS SKI TRAINER IS FOR YOU

1. Commercial lightweight drive cord delivers a smooth response on every ski pull.
2. Slip and sweat resistant base offer awesome grip so you can maintain perfect form.
3. Grip and go with ergonomic, moisture resistant strapless handles that are super comfortable.
4. Elite Performance Monitor with Bluetooth connectivity helps you keep track of strokes per minute, time, distance, cycle, calories and watts.
5. Front transport wheels allow for easy portability around your home or studio gym.

MADE TO LAST WITH SUPERIOR MATERIALS

Equipped with superb commercial-grade fixtures and fittings, your new machine can handle frequent, high-intensity usage. Have 100% confidence during every workout and ski stroke that Force USA has manufactured one of the toughest, most durable home trainers on the market.

BLUETOOTH CONNECTIVITY

The Force USA® Ski Trainer is equipped with Bluetooth connectivity, allowing it to connect to many heart rate belts, fitness devices and apps. Accurately keep track of your strokes per minute, time, distance, cycle, calories and watts with the elite easy-to-use performance monitor.

COMPACT, SPACE-SAVING DESIGN

Perfect for anyone who has a garage, apartment or studio gym set up, this Ski Trainer has a compact footprint (D: 120cm / W:59cm) that can be easily wall mounted. The maximum height on the machine is 214cm, so be sure to double-check your ceilings!

TESTED BY ELITE ATHLETES AND TRAINERS

The Force USA research and development team consists of athletes and trainers who rigorously test every piece of equipment. Relentless quality testing means Force USA is constantly elevating its products like the incredible Ski Trainer so you can reach your strength and fitness goals sooner.

FAST, EASY ASSEMBLY

To get you enjoying your new Ski Trainer as soon as possible, Force USA has made assembly a breeze. Once out of the box you'll only need 20-30 minutes to put together the entire machine. The included Ski Trainer stand allows you to set up your Ski Trainer anywhere, or fix a wall to save even more space in your home or commercial gym facility.
